

Drying cupboard IPD

The IPA fire brigade locker is designed for rescue services and fire brigades. The wardrobe can be equipped with further details such as adjustable feet and tiltable helmet holders.

The special cupboards for fire brigade and rescue units are a welded sheet steel construction made of 1 mm thick sheet metal, these fire brigade cupboard systems can be equipped with a dryer for an extra charge. The door is closed by a rotary bolt which allows quick access. The floor is perforated and extra reinforced. The cabinets have a special lockable compartment with a throw-in slot for small items.
